

PAPER BAG LIT LUMINARY

(THIS ACTIVITY CAN USE A REAL TEA LIGHT (PARENT MUST ASSIST)
OR ELECTRIC TEA LIGHT

Lit Paper Bag Burning Bush Luminary

1. Take a brown paper lunch bag and open it up
2. Cut out an outline of a tree from some cardstock and glue it on the inside of the paper bag (in a pinch you can just use a permanent marker and draw a bush on the outside of the bag-this isn't as special because it is really fun to look at the luminar without being lit and see not tree, and then have the tree magically appear once it is dark and there is a candle in it. Regardless, it is still fun to light the bush and watch it burn).
3. Put a lit tea light candle in the bag and watch the outline of the 'bush' magically appear—so easy, so pretty! If you do not want the bag to burn or if the kids are doing this on their own please **ONLY** use an electric tea light. It would be nice to have the bag to light any time you are feeling like you cannot do something so having the electric light would be awesome! You can always light the bag up to remind you that you can do anything with God's help!
